- Trouw Nutrition GB is a leading global animal nutrition company for the supply of innovative and safe pet food solutions to the Pet Food Industry, through quality assured processes first time and every time.
- Whilst environmental, ethical and sustainability values are core to the business, the Food Safety Management System (FSMS) adapts and evolves to manage new challenges through continuous improvement.
- Through clearly defined objectives for all employees, aligned with our quality policy, food safety policy and food safety objectives, Trouw Nutrition demonstrates its commitment towards the provision of products and services that are safe for consumption, satisfy corporate standards, meet or exceed customer requirements and comply with all statutory and regulatory requirements.
- By monitoring our performance against established objectives and through leadership that promotes employee involvement, we strive to improve the effectiveness of the FSMS. This concept underpins our total commitment to ensuring the safety and security throughout the whole of our supply chain. We recognise our responsibility towards all of our customers to protect their businesses and customers through the supply of safe pet food products sustained by a culture of continuous improvement.

Title: TNGB Pet Food Safety Policy	Revision: 5	

- We accomplish these aims by adhering to our FSMS and operational methods that recognise food safety and customer satisfaction as our primary goals.
- As a company we ensure that persons, including the food safety team and those responsible for the operation of the hazard control plan, are competent on the basis of appropriate education, training and/or experience. Where applicable we aim to take actions to acquire the necessary competence and evaluate the effectiveness of the actions taken.
- This policy is communicated internally, understood and applied at all levels of the business and is accessible to all interested parties on our company website.
